Amendments to the Claims:

Claims 1 - 60 (canceled).

Claim 61. (previously presented) A method comprising the steps of:

with a hub server,

receiving a request for a web page from a golfer computer via a communications network, the golfer computer located remotely from the hub server;

in response to the request,

generating a single web page listing multiple tee times available at a plurality of golf courses for reservation by golfers, the multiple tee times indicated as available for each golf course for a date being a subset of all of the tee times at the golf course for the date; and transmitting the single web page to the golfer computer via the communications network.

Claim 62. (previously presented) A method as claimed in Claim 61 further comprising the steps of:

receiving specific tee times posted by a plurality of golf course users' computers via the communications network, the golf course users' computers located remotely from the hub server and the golfer computer;

storing the available tee times in a database; and

in response to the request,

retrieving the available tee times from the database for use in the generating the single web page.

Claim 63. (previously presented) A method as claimed in Claim 61 further comprising the steps of:

receiving a reservation for a selected golf course and tee time from the user computer via the communications network;
